

KLOVE radio station serves my area with local news, weather, and community updates. It provides important and encouraging news information, as well as encouraging and uplifting Christian music. To replace KLOVE with a LPFM station will remove the excellent broadcasting that KLOVE is known for across this nation. KLOVE is an encouraging alternative to the negative and degrading music and news that is aired from the local radio stations. It is proven that the music of KLOVE is uplifting to all who listen. This is why KLOVE is a vital service to the public
